

Name: Tonya Fox

I am commenting on the proposal to have Juneteenth as a recognized holiday through the State Court. I would like to see the holiday added and strongly believe that the bearing on this holiday being added should not be at the cost of removing an other already established holiday. I feel the recognition of the holiday is very significant and to forgo another day to add it would disrespect the significance of the existing holidays and show a lack of recognition on behalf of the State for the contributions of the employees. Thank you for your time in considering my point of view.
